The McAllen Growth and Expansion Fund - Official Rules – 2021

The competition is intended to simulate the real-world process of entrepreneurs soliciting start-up funds from early-stage investors and venture capital firms. The judges' function as venture capital investors deciding on which business venture, they would most likely fund. The quality of the idea, the strength of the management team, and the clarity and persuasiveness of the written plan and oral presentation, all influence the judges' decisions. Ultimately, the winning team should be the team in which the judges would most likely invest money.

JUDGING CRITERIA AND PROCESS

The judging criteria are those of a venture capitalist; simply, how likely are the judges to invest capital into your business?

Selection round. Judges will review the executive summaries using the judging criteria individually. Then, as a group, the panel will vote on which projects are more appealing for investment and decide which ones they will like to continue to the next round.

Presentation round. Judges will review the written business plans of each of the finalist using the business plan judging criteria. Each judge will listen to and evaluate the oral presentations and record their assessment of the presentation. This round will be a 10-minute oral presentation with 10 minutes for Q&A by the panel of judges.

The quantitative assessment provided by the judging criteria is only meant to serve as a guide to the judges for ranking the teams. They will vote to select a winner based on where judges would invest money.

Judges' decisions are final and not subject to negotiation or appeal.
